MISAEL MALCHIRAM TIMPOLAS

FULLSTACK DEVELOPER

ABOUT ME

I am a passionate full-stack developer with a strong focus on delivering high-quality and scalable web applications. With a solid foundation in both frontend and backend technologies, I excel in creating dynamic user interfaces and building robust server-side solutions. My expertise lies in working with frameworks like Next.js, React.js for frontend development, and backend technologies such as Node.js and Golang. I am also proficient in database management, including PostgreSQL, and have experience deploying and managing applications on cloud platforms like GCP.

I enjoy problem-solving and continuously strive to optimize both code and workflow for better performance and maintainability. Collaboration and learning are at the core of my work ethos, allowing me to stay updated with the latest trends and technologies in web development.
