PROFESSIONAL SUMMARY

Full Stack Developer with 2 years of experience delivering end-to-end web and mobile solutions using Next.js, Golang, TypeScript, and React Native. Adept at developing efficient APIs, building responsive user interfaces, and deploying applications through Docker, AWS, and GCP. Passionate about scalable software design and global collaboration. Eager to contribute technical expertise and creative problem-solving to an innovative engineering team.

SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, Golang, Kotlin, HTML/CSS
Frontend Frameworks: React.js, Next.js, Vue.js, Tailwind CSS, Framer Motion, GSAP, Redux, Zustand
Backend & Databases: Node.js, Express, RESTful APIs, MySQL, PostgreSQL, Strapi
Tools & DevOps: Git, Docker, AWS, GCP, Google Cloud Run, Nginx, CI/CD, Cloudinary, Vercel

PROFESSIONAL EXPERIENCE

Frontend Engineer | *New Oriental Club 88 – Manila, Philippines (Aug 2023 – Aug 2024)*

- Designed and engineered a high-performance web application from scratch using **Next.js** and **TypeScript**, establishing a clean frontend architecture and reducing page load times.
- Collaborated closely with backend engineers to integrate complex RESTful APIs, ensuring reliable and secure data communication.
- Designed and maintained a highly scalable, reusable UI component library, reducing overall feature development time by 25%.
- Assisted in configuring CI/CD pipelines and deploying projects to **Google Cloud Platform (GCP)**, ensuring robust server availability.

Full Stack Mobile Developer (Freelance) | *PT Nusantara Teknologi Hayati – Jakarta, Indonesia (Feb 2025 – Mar 2025)*

- Developed and optimized a mobile application from scratch utilizing **React Native**, **Golang** (backend), and **Kotlin** (Native Android).
- Engineered a native Kotlin Android SDK integration within a React Native layer to capture low-latency biometric data from smart rings.
- Designed and built highly efficient RESTful APIs using Golang, optimizing transaction and query speeds.
- Containerized backend services with **Docker** and successfully deployed them to **Google Cloud Run**, ensuring modern scalable container infrastructure.
- Integrated **Xendit Payment Gateway** to facilitate frictionless and secure online payments for users.

Full Stack Web Developer (Freelance) | *GPdI Shekinah Graha Harapan – Bekasi, Indonesia (Mar 2025 – May 2025)*

- Engineered a church community website from scratch utilizing **Next.js** with Server-Side Rendering (SSR) and Client-Side Rendering (CSR).
- Designed an automated data sync from Google Spreadsheet APIs, allowing staff to update church bulletins without manual database operations.
- Optimized site speed, structured metadata tags, and core web vitals, resulting in top page ranking and indexing on Google Search.
- Deployed the web application via **Vercel** and managed domain routing and SSL security using **Cloudflare**.

EDUCATION & TRAINING

Full Stack Web Development Bootcamp | *Dumbways Indonesia Teknologi (Mar 2023 – May 2023)*

- Completed an intensive full-stack development program focusing on **React.js**, **Golang**, **PostgreSQL**, and **Cloudinary** deployment.
- Developed and deployed complete multi-tiered web projects including *Tour Projects* and *Foods Market*.

High School Diploma | *SMA Negeri 1 Tondano – Manado, Indonesia (2014 – 2015)*

ADDITIONAL INFORMATION

- Languages:** English (Professional Working Proficiency), Bahasa Indonesia (Native)
- Availability:** Immediately available; open to international relocation with sponsorship.
